BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands in the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 80 acres.

Eighty acres to all who have served and have received 80 acres.

And if the Soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow to his Minor Children.

Service in the Revolutionary War—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims there under, said Acts, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls in his possession, and especially very full ones of the Militia drafted for the Aroostook War in 1839.

As inducements to consult him, and as he ventures to rely upon his long and well known experience and success in these matters, he will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant, early, apply early!

To Holders of

LAND WARRANTS!!

John L. Hodsdon,

DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large sums of Land Warrants from parties in the West, who stipulate him to pay for the same the highest market value in CASH. Any person having a warrant may therefore be assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to

Locate their Warrants,

he would further say that he has skilled and careful agents in the States of

WISCONSIN

AND IOWA,

and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

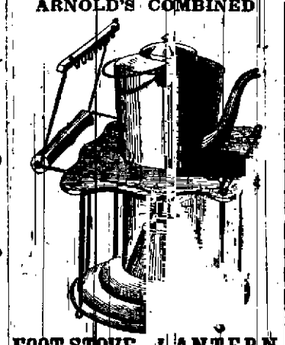
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

AND

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

ASSIGNEES' SALE

—OF—

Valuable Real Estate

—AT—

ZILWAUKIE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 28th of February, 1856, at noon, unless previously disposed of at private sale, by order of the Assignees.

First—One large Steam Saw Mill, known as the Gang or Mammoth Mill, about 60 by 126, including a gang of 24 saws, 2 muley saws, with sledging and edging machines, engine room about 30 by 76 feet. The whole driven by the most powerful engine on the river.

Second—The Mill known as the Shepherd Mill, of about 42 by 60 feet, consisting of two muley saws and edging machines; this mill is said to be equal to any mill of its size on Saginaw river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railways, Booms, in fact all the necessary appointments of first class mills. The above mills were in operation for about three or four months the last season, and gave the utmost satisfaction in regard to the quantity and quality of lumber cut.

Third—About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 80 feet, two stories high; a new Store 40 by 60 feet; Office and Boarding House, and a number of other Dwellings to accommodate the families of those employed in the mills, and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat of Saginaw County, with which it is connected by a good road. The location is considered healthy, less sickness has prevailed in that than any other Village on the river, according to the population, since its settlement, it is at the head of navigation for loaded vessels bound from or to the Lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land up Cass River, in Tuscola Co.

For further particulars apply to Dr. CHARLES T. BISBROW, East Saginaw, Mich., or

Boston Lying-in Hospital,

SPRINGFIELD-STREET.

THE Trustees of this Hospital desire to call the attention of the Medical Faculty, and of the New England public, to the advantages which the new Hospital affords for the comfort of patients and the treatment of those cases which it was the intention of its founders to relieve.

Admission regulations are upon the same principles as those of the Massachusetts General Hospital; the charges depend upon the accommodations, and are as low as the means of the Corporation will admit. In the construction of the Hospital great attention has been paid to the comfort of the patients, in ventilation, heating apparatus, bathing rooms, water-closets, etc. The capacity of the building being in advance of the wants of the public for lying-in patients, the trustees have decided to allow a portion of the Hospital to be used for the accommodation and treatment of diseases of the female sex," and applications may be made personally, or by letter addressed to Mrs. C. L. WINN, Matron of the Hospital.

N. B. One or more of the Physicians of the Hospital will be in attendance there, every Wednesday afternoon, from three to four o'clock, for the purpose of receiving out-patients needing advice for the above complaints.

"They know the value of the victory they helped to win last year." —*Bangor Journal*

Doubtless nobody is better qualified than the Straiton leaders to make that estimate.—*If an outsider were to reckon it*, perhaps he might fall short in the total value received; but he would nevertheless make out a very liberal amoufit of consideration paid by the democrats to their allies—an amount as some of the latter have been thinking, quite disproportioned to the votes brought into the coalition.

Then as a portion of the "value" they have a State Treasurer, Attorney General, Adjutant General, Speaker of the House, Secretary of the Senate, Superintendent of the State House, State Librarian, State Binder, Assistant Clerks of the House and of the Departments, Chaplain of the House,—a full moiety of the Sheriffs Deputy Sheriffs, Registers of Probate &c., throughout the State, and various other officers appointed by the Governor, they are also to have a Deputy Land Agent, various Recorderships of City Courts &c. &c., (in the distribution of which we are happy to hear that our friends of the 'Journal are likely to obtain a good share of the "value".) We may believe also, that despite the severe integrity with which the opposition editors and leaders have watched the Land Office, *others not under their control*, and the extreme horror they have manifested lest claims for land or scrippage however just and well founded, should have been allowed to their political opponents—it may nevertheless be believed, we say, that if there is any "value" to be obtained by *them* out of the operations of the office, it will by no means be rejected

The Journal declares, for about the hundredth time, that the Strait Whig leaders, knowing full well the value of victory, are determined that there shall continue to be, "her many of feeling and unity of purpose between them and the democratic party, as there was last year" Doubtless the Strait Whig managers of the Alliance find it a very comfortable thing to receive a clear half of the offices and other proceeds, upon an assessment of one-fifth of the votes, and will be very anxious to continue the arrangement; and to that end, they would keep up a nominal Whig organization, in order that their claim for the full half may be maintained. But the arrangement can not long continue satisfactory to the bigger branch of the alliance

The Bangor Journal struggles vainly to escape from the just odium of its utter desertion of the principles laid down at the Kenduskeag Strait Whig Convention Its only excuse is by charging that the *Republican* Whigs had left the Whig party—(they never abandoned Whig *principles*) and that therefore, in order to *save* the Whig organization ( ) the Straitonites went into the locofoco camp What an admirable method of saving the Whig party! To form a deliberate and permanent coalition with the ancient enemies, not only of the Whig organization, but of whig principles!

But the Journal cannot escape in this manner from the overwhelming comparison which is afforded by the ample publication of the Kenduskeag resolution which we cited the other day, in juxtaposition with the present bold avowal of aiding and comforting the Nebraska Democracy. If the Strait Whigs in 1854 assumed the position that all who went into the party of freedom as against the Nebraska democracy, were *traitors* to the old parties They (the Strait Whigs) set themselves up as par excellence *the* Whig party Come what might, *they* would be ever faithful, ever true to that organization—*they* would have no part nor lot in fusions or coalitions—*they* would never be guilty of assuming political opponents to office—they were the real Simon Pure, unadulterated, uncompromising, incorruptible, knownothing olde WHIGS And these declarations were concentrated and embodied in the resolution with which it is now so awkward and uncomfortable for the Journal to reconcile its present action Read it again

"*Resolved* That those individuals, who *claim to be Whigs* now days, and at the same time publicly and privately lend their influence and seek to promote the election of a public opponent, are TRAITORS TO THE NAME AND TRAITORS TO THE WHIG CAUSE."

Could there possibly be a stronger denunciation of all coalitions, unions and "alliances," than this? Could men more unreservedly pledge themselves never to vote for anybody but a Whig? And yet the very leaders who drafted that resolution are now found actually *assenting* of having entered into a coalition with the butternut and life-long enemies of the old Whig party—a coalition not for principle as was the case with the Republican movement, but directly *against* the professed principles of this same Kenduskeag Convention! It seems to us that it is only necessary to show the honest voters who have followed the Straiton leaders, the monstrous inconsistencies of which these leaders are guilty, and to point out their evident amalgamation with the hunker democracy, to induce a repudiation of their policy and purposes

It is stated that there are twenty-three circus companies in the United States, and the average expenses of each, daily in the summer season is $250—in all about $3000. The cost of feeding horses, &c., is about $750,000 and employment is given to 2000 men, and an equal number of horses

A young chemist of Cuba, named Peymanat has discovered a process of making wine from the juices of the orange and pine apple. He has already made contracts for a large exportation of this article to Europe.

It is thought at Buffalo that Lake Erie will not be open for navigation before the middle of May, which will make freights for flour and grain from the West much later than usual.

Removal of the Removal of Judge Davis.

After repeated, and causing by the Democratic and Whig members of the Legislature of Maine, was decided in caucus on Tuesday evening, a vote of seventy to one, to take measures for the removal of Judge Davis from the bench of the Supreme Judicial Court.

On yesterday, (Wednesday) forenoon, Senator Bames of Cumberland, in obedience to the mandates of the caucus, introduced in the Senate the following resolutions, and the same passed the Senate, 21 to 2

We have not time or space to comment at length, at the present time, on these extreme proceedings of political party malignity and folly.

Stripped of its verbiage, the sum and substance of this matter is, that Judge Davis is to be removed from office by a most reckless and unscrupulous, political coalition, because he is a political opponent, and because he decided according to his best judgment a question between two claimants for the Sheriffcy, which he was obliged to decide or be without officers for his Court. He has done nothing but attempt to carry his decision into effect Party majority at Augusta refuses to have the question decided by the full Court, but determines to have Judge Davis's head, after a mock trial before a partisan tribunal.

The resolutions, of which we received a copy last night, are as follows

IN SENATE, March 19

Resolved, That the Senate after due notice given according to the Constitution, will proceed to consider the adoption of an address to the Governor, for the removal of Woodbury Davis, one of the Justices of the Supreme Judicial Court for the following causes

Because the said Woodbury Davis at the term of the S J Court, holden by him for the county of Cumberland, in the month of January last, and in the present month of March refused to recognize the official authority and privilege of Daniel C Emery, who had before been duly appointed, commissioned and qualified as Sheriff of said county, and then in that office

Because the said Woodbury Davis in his capacity as Judge, has assumed without legal issue a judicial trial thereof, to deny the lawful and official validity of the commission issued to the said Sheriff, under the hand of the Governor and the seal of the State

Because the said Woodbury Davis, not regarding the lawful and actual custody held by the said Sheriff, of prisoners confined in the jail of said county for trial at the present term of said Court, has undertaken to remove said prisoners from jail, and has removed them by process not warranted by law

Because the said Woodbury Davis at the time aforesaid, has recognized as the Sheriff of said county, another person who had before been lawfully removed from that office, and has undertaken to issue the orders and precepts of the said Court to be executed by the person who had been so removed from office All of which acts and proceedings are and have been open and notorious, and are persisted in with

Because the continuance of such acts, proceedings and assumptions of the said Woodbury Davis tends to produce insubordination, confusion and violence, is of dangerous and pernicious example, confounds the distribution of the powers of government, and tends to the subversion of the actual constituted and lawful authority of the State.

Resolved, That these resolutions and statement of causes of removal be entered on the journal of the Senate; and that a copy of the same be signed by the President of the Senate and be served upon the said Woodbury Davis by such person as the President of the Senate shall appoint for that purpose, who shall make return of such service upon his personal attendance before said Court, and on the Friday the 28th day of the present month, at 9 o'clock in the forenoon be assigned as the time when said Woodbury Davis may be admitted to a hearing in his defence

A PRIVATE of the 11th regiment of Harvers, named Josiah Dryden, who received thirty-one wounds in one day, at the storming of Sebastopol, is entirely recovered, and again doing duty

Scotland was the scene of a terrible snowstorm in 1794, which is the most extraordinary one of which there is any record In one single night the snow fell to the depth of eight or ten feet, and in some places the most lofty trees were entirely covered. By this one night's storm seventeen shepherds lost their lives, and thousands of sheep, besides other animals, were destroyed One farmer alone lost 1400 sheep After the storm had somewhat disappeared, three were found collected together, (by its violence) in one spot, the dead bodies of two men, one woman, forty-five dogs, three horses, nine black cattle, 180 hares, and 1840 sheep.

The Accident at the Dexter Town Meeting—200 persons precipitated into the Cellar—Wonderful Preservation.

We give the following extract from a private letter, giving an account of the recent remarkable accident at Dexter in this county

DEXTER, March 17, 1856.

We held our town meeting to-day in the Town Hall, in the second story—we had the largest gathering ever known in Dexter at the annual meeting While the hall was crowded with 400 or 500 men and boys, the floor of nearly half the hall gave way and over 200 men and some boys, were precipitated into the lower story—the floor of which yielded, and the mass of living beings went pell mell into the cellar The entire fall was about 15 feet A large stove fell with them. The position of the floors after the crash was in the shape of a tunnel, and the men and stove were all piled into the center *Wonderful to tell, no bones were broken*, and it is believed, none are permanently injured I was one of the fortunate ones who stood on that part of the floor which remained in its proper position Such a cloud of dust from the ashes of the stove &c., arose, that for some time, we could not see any of them below. When it cleared away, some were drawn up to where we stood, some got out of the lower story windows, and some out of the cellar windows. The mass of living, struggling flesh in the tunnel, piled one above another, and striving to get free, presented a scene of agony, passing description

Charles B Bates, Jere Abbott, Wm. Eaton, Charles Wheeler, Reed Wheeler, Eben Wyman, Chas. Parkman, Wesley T Thompson, Ansel Libby, T. D. Hayes, Jethro Goodwin, and many others, were more or less injured —We hope none very seriously.

A correspondent writes that the political contest at Dexter, on Monday was very excited, and that when the accident occurred, the Republicans had just elected their Town Clerk on a test vote by 30 majority, and the people were then voting for 1st Selectman. The meeting was adjourned till next morning

At the adjourned meeting, the Republicans gained a complete victory, on a full vote We received last night an animated account of the whole contest, including the break down, and shall publish it in our next.

The Majority Report on the Proposed Liquor Law.

We are willing to accord to the writer of this report, an ability in the use of language at least, which should have been employed for a nobler purpose, than that of attempting to sustain a general license system. It is now too late in the day, and too repugnant to experience, to bring the public mind to the condition that such a remedy would be effectual in suppressing to any great degree, the traffic in intoxicating liquors, and consequently the deplorable evil of intemperance The arguments, if they should be called such, presented in this report to gratify the object in view, are fallacious and unsound The moral as well as intelligent sense of the community will detect the false reasoning, so far as it regards the regulation of the traffic by a License system There can be no security, where liberty is given to sell for a common drink, that this liberty will not be abused To those who may be allowed this privilege, the old adage may be applied, "If you give them an inch they will take an ell." It would be almost as difficult to restrain the lightning and the winds within certain limits, as to check by any half way license system, the desire of gain excited by this opportunity for indulgence

If entire prohibition cannot accomplish the end, a partial one will be more ineffectual — But I did not begin to discuss this question, but to call attention to one provision of the proposed law which is really entitled to regard and praise It is that which makes the unauthorized seller of intoxicating liquors liable for all the injuries, which the drinker may commit in a state of intoxication, in an action of the case in favor of the party injured This provision so far is just, but it should be extended, so as to include a criminal as well as civil liability, and to allow wives to prosecute for damages, &c It any credit is due for the suggestion of this remedy, the writer of this article may fairly claim a portion of it, for nearly twenty years ago he advanced this principle, and has since repeatedly presented it in petitions to the Legislature for adoption—and I now believe that a law of this description would do much to prevent the common sale of ardent spirits, and to protect the families of inebriates from the terrible effects of intemperance, while it would silence that jealous and vindictive spirit which is so often manifested towards those who are instrumental in the commencement of liquor prosecutions without having any personal interest in the complaint or result

I hope, whether we have a prohibitory or license law, that the provisions, now mentioned may be incorporated in it I believe, there are some cases, where the common law would afford a remedy for injuries arising out of the sale of intoxicating liquors, and I wonder that no effort has been made to try the efficacy of this protection The subject deserves consideration We should remember that public opinion will always qualify a resort for damages where it is pursued by the party injured, and if a statute law is necessary to afford this relief, it should be enacted

LIFE OF SCHAMYL, AND NARRATIVE OF THE CIRCASSIAN WAR By J Milton Mackie Boston John P Jewett & Co. 1856

The efforts which have been made for so many years on the part of Russia, to subdue the brave and hitherto invincible Circassians, and the brilliant defence made by that patriotic people amid their mountain homes, against the power of one of the greatest nations on earth, have attracted the attention, and commanded the admiration and sympathy of the civilized world The contest between Russia and the mountaineers has been going on, with varying success, for several centuries, but it is since the advent of the remarkable chieftain Schamyl, that the Circassians have gained those brilliant successes which have spread their renown through the world The country of the Circassian tribes lies in the Caucasus, a range of mountains which, running in the direction between north-west and south east, extends from the shores of the Black Sea to those of the Caspian, and divides by its wall of rock the two continents of Europe and Asia.

The Caucasus is celebrated as the scene of some of the most popular fables of Grecian antiquity, as well as of some of the earliest traditions of the race. For while the ark of Noah is said to have grounded on the top of Mount Elbrus before reaching its final resting-place on the neighboring Ararat, it was on Kasbek that Prometheus was chained to a rock for having stolen the fire of the gods and given it to mortals. In the mountain land of Colchis, Jason carried off the golden fleece, and Cadmus reaped a harvest of armed men from sowing serpent's teeth in furrows turned by the fire breathing bulls of Vulcan Hither wandered that primitive race of men who were driven by the Pelasgi from the regions of Olympus, on an island off the coast the poets located the palace of Aurora, wherein were kept up the perpetual dances and songs of the hours, and where was daily re-born the sun, and finally, between the present Little Kabarda and Svanetih existed, say the traditions, the gallant state of the Amazons, until the heart of their other wise unconquerable prophetess was taken captive by Thoutme, chief of the Circassians, while long afterwards the famous Nina continued to rule over the heroic sisterhood in Immeritia.

The ancient Persians gave to the Caucasus the name of Sedd Iskender, or the barrier of Alexander, who here met with the first check in his attempt to subjugate the world

The volume under notice reveals to us the education and habits of that warlike and energetic people. It reviews the causes and progress of the war in an able manner, and its details of the life of Schamyl are valuable for reference.

THE HISTORY OF LUCRETIA BORGIA By John S C Abbott New York Harper & Brothers. 1856

In this beautiful little volume, illustrated with handsome engravings, the well known author has given a vivid idea of the adventures of the celebrated Cortes and his companions, in their Conquest of Mexico, according to the generally received accounts of that great event. The career of Cortes, if we may believe the writings of the old Spanish historians, (of the exact reliability of which there have, however, been doubts expressed by recent authors,) was the most wonderful which is recorded in history—for we are informed that he conquered and permanently subdued a vast and populous nation of fierce, warlike and partly civilized men, with only a handful of European followers

His extraordinary adventures have been presented to us attempts, in the most brilliant imagery, by the magic pen of Prescott The present volume by Abbott, while not upon the extended scale of Prescott's "Conquest of Mexico," and not written with any such pretensions, is an interesting epitome of the life of the Great Captain

Terrible Accident at Philadelphia—Statement of a passenger.

From the Philadelphia Ledger Extra, March 16, we have further particulars of the burning of the Camden ferry boat and the terrible loss of life consequent thereupon

The following statement is furnished by Mr Agnew, a passenger —

MR. AGNEW'S STATEMENT

I was standing conversing with Mr Muschamp, a conductor on the Camden and Amboy Railroad, when he discovered the flames bursting out around the smoke stack. — Making an exclamation that the boat was on fire, he sprang forward to the windward. He saw the captain in the pilot house with the pilot. Almost the moment the fire was discovered the boat was headed for Arch st. wharf. A wild, heartrending scene of terror ensued There were, as nearly as he could remember, over one hundred persons on board, including twenty or twenty five ladies. By a common impulse they rushed to the windward to avoid the intense heat of the flames, which had now enveloped the whole after part of the doomed vessel. Mr Agnew clung to the guards as long as he could — Around him, frantically endeavoring to wrench loose the steamcheocks which were yet free from the devouring element, were the horror stricken passengers, who, but a few moments before, had been so full of hope and happiness. There was nothing that he could see save a bench or two that could in any way be made available as a float or life preserver The last as the wind drove them about, increasing in volume every moment, caught the dress of this woman, whose shrieks for assistance were appalling. One young girl, Miss Cassidy, as the only one he recognized, and the last view of her she was enveloped in seeming pitcously The scene was too awful and appalling for reality, —sometimes five or six at a time— in the fearful leap from the burning to the scarcely less terrible chances of life in the cold water.

Mr. Agnew had struggled up to within twenty feet of the wheel when the pilot house fell, and all command of it being lost, it swung out, head down There were at this time not more than six or eight persons remaining on board that he could see. He leaped into the stream, and says his only fear at the moment was of being struck by the wheels He swam about one hundred yards, when he providentially reached the bow of a clipper ship and was rescued by the promptness of those on board His is positive that not more than ten minutes elapsed from the time of the discovery of the flames around the smoke-stack until the boat was completely wrapped in fire. The captain, as far as he could notice in the confusion, was doing his utmost to save the lives of those on board, and the pilot remained at his post to the last.

Earthquakes and Internal Heats.

We make the following curious and interesting extracts from a letter of E Merriam, on the subjects of earthquakes, published in the National Intelligencer

During the great earthquake at Chanthpun, Siam May 13, 1854 which was felt at the same moment in Valparaiso, South America, and throughout the province of Tuscany, in Europe, hare, resembling human hair, came out of the earth in the twinkling of an eye, during the earthquake—in the fields in the highways, in the bazaars, in the market places

On the 5th of February of the same year, during an earthquake at Mahone Bay, Nova Scotia, moths, like cabbage grubs fell from the snow clouds, and great flocks of robins followed the cloud, and fed upon the grubs. These birds had never before been seen in that cold climate in winter.

On the first day of next month, it will be precisely one hundred years since the great earthquake at Lisbon, which destroyed sixty thousand people in six minutes, that earthquake was felt on all the continents of the globe The great earthquake at Caracas, on the 25th of March, 1812 destroyed ten thousand persons in two minutes Both these earthquakes happened during religious festivals, as have also several other earthquakes of which I have record

With regard to the heat of the interior of the earth, I have some facts that have a bearing The multitude of volcanoes found in various parts of the earth, extend within the interior of the continents of Africa come from ever-burning fires, but there are places beneath the earth's crust, where heat is not only absent, but its opposite is present In a paper addressed to me in 1845, by E. W Newton, Esq., of Kanawha, Virginia, he says

"In answer to the inquiries contained in your letter, which has been placed in our hands by the gentleman to whom it was addressed, we remark There has been no misrepresentation in the newspapers in relation to the depth of the salt wells Several of them are from 1,200 to 1,610 feet. Mr C Reynolds assures us that his well is sixteen hundred and fifty feet deep There is abundant evidence that there is no increase of temperature in the depth reached in any of the wells

There was a fear expressed when the great reservoirs of gas were first reached at Kanawha, that it might be ignited by lightnings, and an explosion be the result; hence the remark referred to in my letter that the gas came from beneath the water! Nature had protected the gas from fire resulting from meteors of the clouds by placing it under water On Green river, Kentucky, however, passengers in steam boats become alarmed, during low stages of water, when the boat disturbes the sediment on the rock bottom of the river, during which carbureted hydrogen escapes in such abundance as to fill the air so as to ignite from the fires in the furnaces under the boilers if the furnace doors are left open

At Kanawha, the gas is conducted under the salt furnaces, and as cheap as fuel in salt boiling the cinders I have specimens of in my pocket having all the appearance of roots and fibers of vegetables Underneath that surface is a natural manufactory of bituminous coal — The gas is condensed and forms petroleum, carbalizes and forms coal. This is the way in which all the mineral coal is produced, and not, as is erroneously supposed, to have resulted from vegetation I have explored the Mammouth Cave of Kentucky, to the extent of fifteen miles, and found all the dry apartments, avenues, etc., are of the same uniform, unvarying temperature of fifty nine degrees of Fahrenheit throughout the year. These two localities I rely upon to sustain me in the conclusion that the increase of temperature in descending beneath the earth's crust is not universal I am familiar with the temperatures and chemical condition of almost all the deep salt wells in the United States

In connection with this, I must mention fire as a companion of other phenomena of Nature On ascending the white face peak of the Adirondacks a few years since for the meteorological observation, I was stopped, when half-way up the mountain, by the smoke of a forest fire near by, which had overtaken me. I descended The fire soon reached the mountain, and before I left the vicinity, the majestic height was wrapped in one vast magnificent covering Everything that was combustible was consumed, and even the thin covering of earth which supported vegetation on the vast rock surface was calcined There was nothing of vegetable life left. Five years after, I again ascended the same mountain, and its whole surface was alive with a thick growth of blue berry bushes, yielding such abundance of delicious fruit that people came there to gather it for the Montreal market. The germ was in the fire, or in the granitic rock, from seed planted by God on the third day of the creative epoch, and before the sun was placed in the firmament.

"There he goes again," said Mrs Partington in the Legislature, as a member stood up for the fifth time to speak on a question "There he goes like a pods fountain, and just as fluidly as water Now, Isaac, mind him, and see if you can't become a speaker of the house of representatives sometime I declare!" continued she, as a new burst of eloquence reached her ear, "it does seem as if the mantlepiece of Daniel Webster had fell onto him, he is so bright."

The mallet of the presiding officer called to order, and the old lady was left out, holding like by the hand, who kicked an elderly gentleman's shin, as he was going before him, by accident of course, and the elderly gentleman looked besides at the young transgressor, who was so busy thinking of a roll of lozenges he was going to buy when he got down stairs, that he didn't mind the elderly gentleman at all.—*Post*

PENOBSCOT

Lumbering Association.

NOTICE is hereby given, that at a meeting of the Board of Directors March 17th, 1856, the following vote was passed

The Treasurer is hereby instructed to advertise for sale on or before the fifteenth day of April next all logs on which the boomage has not been paid or satisfactorily arranged, and secured by good notes, saving the time of sale about the fifteenth of May; and that he shall sell the same accordingly, if the boomage is not so paid in cash or good paper, reserving the lein in all cases where paper is taken and that he shall take possession of all logs of a number on which the boomage has not been paid before the time of sale, where he deems it necessary for security

Also, that the Treasurer give notice that every man must drive clean, as near to the rafting places as may be, that is, that each man must drive on to the pier, whether at the upper or lower boom, as required by the charter; (if this is not done the Association will not be bound to take the logs, and if they do drive them in or haul them from the shore it will be at the cost of the owner)

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, March 19.

SENATE.—The Senate passed the military academy appropriation bill.

Mr. Clayton concluded his remarks on the Central American affairs. He stated on the authority of Mr. Vanderbilt, the President of the Transit Co., that there never was any act on the part of that Company which in any manner encouraged Walker's invasion of Nicaragua.—He referred to Walker's seizure of the Company's property, amounting to nearly a million of dollars, and read letters from Mr Vanderbilt to Secretary Marcy, in which the former asks for the intervention of the U. S. Government for redress. The seizure was made on the ground that the Company were indebted to Nicaragua. But Mr Vanderbilt denied such alleged indebtedness, and refused to submit to the award of arbitrators, as the charges were utterly false.

With regard to the settlement of our difficulties with England, three propositions had been made. Arbitration could not be countenanced because the passage of the Isthmus was possessed by us, and not for Gt. Britain, and because with an impartial umpire our lease would be clear. Abrogation of the treaty would give a chance to Great Britain to get possession where she could annoy us, and as to giving notice to Gt. Britain to vacate the premises, it was not proper to do so at present. He proposed to continue the negotiation with the hope of bringing Gt Britain to reason by argument. Meanwhile, we should arm in our own defence, protection coast, build fortifications and increase our navy—not however to make our country ental Great Britain.

We should take time to do this. It is our right to do so, war or no war. This is the worst time we could engage in a war with Great Britain. She is armed cap-a-pie, capable of throwing 40,000 troops from the Crimea upon our coast, and with the greatest naval equipment ever known in the history of the world, while we are almost defenceless. If Great Britain should see that we are resolved to enforce our rights by pursuing the doctrine laid down by Washington, "in time of peace prepare for war"—should see that we are building up fortifications and a naval power, the people of England would compel their government to yield its positions. Since the publication of the correspondence between Lord Clarendon and Mr Buchanan, public opinion in England has been rapidly tending towards an acknowledgement of the justice of our construction of the treaty. He (Mr Clayton) had received on this point such information as left no doubt of the fact that our appeal must be from the British Ministry to the British people, who will not engage in no unjust war with us. At any rate, be the consequences what they may, if we are driven to the alternative of disgraceful submission or war, we must fight. He could not, however, believe there was any real danger if we, the Senators and representatives stand firm, and present an undivided front—if we all agree on our rights, and manifest a determination to enforce them, they will be respected. The British people will turn any ministry out, rather than fight with such a nation as ours.

The Deficiency Appropriation Bill was then considered. $300,000 was appropriated to continue the Washington Aqueduct.

Mr Hamlin made an ineffectual effort for an appropriation to the various Custom Houses and Marine Hospitals.

House.—Mr Bowie spoke against Mr Reed's position in the Kansas case, and against granting power to send for persons and papers.

Mr Hickman proceeded to close debate. He said it was admitted that there had been an invasion of Kansas by an armed force, and the rights of the people virtually subverted. Had not the Committee the right to make inquiry into these facts. He attributed the present troubles to the repeal of the Missouri Compromise, but he would not vote for its restoration. It was basely and unceremoniously destroyed, and gone into the arms of debauchees, been deflowered, dishonored, polluted, and cannot be restored to its original sacrity and purity.—He could not, therefore, again take it in his arms.

He looked forward to the day when those instrumental in this act of wickedness and folly would repent it in sackcloth and ashes.

The House then voted under the operation of the previous question.

Mr Bennett of Miss. had moved to amend the committee's resolution to send for persons and papers, by substituting for W. Bradley and Sidney S. Baxter as Commissioners with full power to take testimony.

The House adopted, 109 to 91, in lieu of Mr. Bennett's proposition, Mr Dunn's substitute, which provides that the Speaker appoint a committee of three of the members of the House to proceed to Kansas and take testimony—appropriating $10,000 to pay their expenses, and requesting the President to give them military protection if necessary.

Mr Cobb of Ga said as there was now no remaining proposition which ought to be adopted, he moved to lay the subject on the table. Negatived 93 to 180.

Mr Dunn's proposition was then adopted, by 107 to 92.

A Collision—Two Men Killed.

PHILADELPHIA, March 19.

A collision occurred between two freight trains on the Baltimore and Philadelphia Railroad last night, near Havre de Grace. Geo. Goodwin the conductor, and Wm. Todd brakeman, were killed. A drover named Flynn, was injured.

SECOND DISPATCH.

The collision occurred at Aberdeen, at about 10 o'clock, one of the trains left Baltimore at 6 o'clock, and the other, an extra freight train, about four afterwards. The advance train was delayed waiting for the mail train to pass, and the usual signals were displayed, but in consequence of the thick snow storm, that could not be seen by the engineer of the rear train, hence the collision.

Geo. E. Goodwin the conductor, was killed instantly. Wm. Todd, brakeman, lingered till he was brought to Havre de Grace. The deceased have each left a family. Mr Flynn was but slightly injured.

RICHMOND, March 19.

The Virginia Legislature adjourned to-day. The weather here is very mild and a few flakes of snow fell yesterday.

Rail Road Accident.

ALBANY, March 19.

The train which left New York at 12 o'clock to-day, on the Hudson river Railroad, was thrown from the track when about three miles below this city, by the breaking of some of the running gear of the first passenger car.

The first and second passenger cars were pitched down an embankment into a field, landing bottom up. I hear of only one passenger badly injured.

SECOND DESPATCH.

George B. Woodbridge, Sergeant-at-arms, had both legs broken; Joseph Kenny, of Greenbush, leg broken; Reuben Ellis, of New York, injured internally; Mr Ellison, Fishkaven N.Y. ankle broken; a lady, name unknown, severely burned by the stove. Many others slightly injured. Among the passengers in the first car who escaped injury, were Rev. Dr. Osborn, Rev. G. Phillips, and Rev. S. Van Deusen.

New York, 19th.

The steamship Africa sailed to-day by Liverpool, with 68 passengers, and $700,000 in specie.

Thirty Years Experience of an Old Nurse.

☞Hear the Brooklyn Daily Advertiser:

We cheerfully comply with the request to insert the following letter, which we are sure will be read with interest by every lady of the first respectability, residing in Brooklyn, believing that a vast amount of suffering, expense, and many valuable lives saved, by causing mothers in this valuable prescription of experienced nurse.

Dear Sir:—I am happy to be able to certify to the public from my own experience of what it is recommended to be, that is, a child suffering greatly from teething, was sent at night by his cries would not partake by to sleep, I purchased a bottle of the Soothing door to test the remedy, and when given according to directions, its effect upon him was soon went to sleep, and all pain and suffering was removed. We have had no trouble with him since, quite as much as the Soothing Syrup. Every mother who has had the life of her children should possess it.

Yours, &c., E. S.

This House has been thoroughly repaired, refitted, and refurnished throughout with new Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior facilities so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rope Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized in the business that no man should now think of building in the old and slow and imperfect methods.

California Steamers,

Carrying the United States mail.

5th and 20th of each Month.

Reduced Prices. 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama $ 258.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving cutire through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. P. BARTLETT, Agent.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

Is a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Throat and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the irritation in the throat which excites coughing, promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

Sold in full bottles, 25 cents each; large ones, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

Bowdoinham, Me., January, 19th, 1853.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls.

Rev. Sir,—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as I have learned, it has proved a perfect remedy in the cases where I have used it. One had, we had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was entirely cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Rev. Fletcher Chuck, agent for North Dixmont, Maine.

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had a couple of years standing, and others who have been afflicted six months, without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me.

Thorndike, Jan. 1, 1854.

To Rev. Walter Clark, Dear Sir—The parties that have used one bottle of your Universal Cough Mixture to a distressing cough and soreness in the lungs, and disorder in the case of several physicians, without obtaining the least relief, happily found your Universal Cough Mixture was recommended to me, for, it cured a hostile, which I began to take according to direction on the label, by which in a few days I was entirely cured.

HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,

and all Diseases of the Sexual Organs, whether in MALE OR FEMALE,

from whatever cause they may have originated, and *No Matter of How Long Standing.*

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the diseases complained.

It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus restoring the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

if not from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no nauseating sensation, and may be taken by persons of either sex without inconvenience from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient, to a perfect state of *Health and Purity.* And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found; it acting both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Shald head, Ulcerations of the Throat and Legs, Runs and Sores, Sores of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction, in the various cases in which they have been employed; whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all others of a similar character, as the best and only remedies for such complaints as the preparations recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which will course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently totally spoiled, if high heated totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the difficulties to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5

" Sarsaparilla, $1 per bottle, or 6 for $5

Certificates of cures and recommendations from distinguished professors and physicians, will accompany each preparation. Prepared and sold by

DOCTOR DOFLAND'S CELEBRATED GERMAN BITTERS,

PREPARED BY

Dr. C. M. JACKSON, Philad'a, Pa.

WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice, *Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach,*

such as

Constipation, Inward Piles, Fullness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Flittering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency, of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat, Burning in the Flesh, Constant Imagining of Evil, and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation, offers it as the most confident and safest remedy in the known world, in all diseases for which it is recommended.

It is not new and untried, but one that has stood the test of a ten years' trial before the American people, and its reputation is unrivalled by any similar preparation extant. The testimony in its favor of the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from your own State is respectfully submitted, differing as they will no doubt, to my "Medicinal Guide," or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

Principal office and manufactory, 120 Arch-st., Philadelphia, Pa.

TESTIMONY FROM MAINE.

Capt. Daniel Abbott, of Knoxlin, Maine, July 16, 1853, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S.C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement, that of "Hoofland's German Bitters" in it, I sent for some immediately. That was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was a good appetite for supper, and rested well that night, and the next day I found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place, where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 24, 1855, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his statement."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them in her case, and sent to your store and purchased *one bottle.* She had taken it but a few days when she began to improve, and now, after taking *only one bottle,* she is enjoying better health than she has for years. She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable,* thereby possessing advantages over most of the preparations recommended for similar complaints.

For sale by respectable dealers and storekeepers generally—and by J. S. Ingraham, Bangor; W. F. Morrell, Dexter; E. B. Fuller, Lincoln.

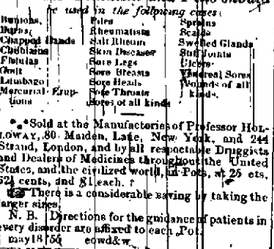
A MARVELLOUS REMEDY!

For a Marvellous Age!!



HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies.—Through these pores this Ointment is rubbed on the skin, is carried to any organ or tissue that requires it. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds are by its means effectually cured. Every housekeeper knows that salt passed through a fine sieve or mesh of any thickness.—This healing Ointment, in the same manner, penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when trying to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. Will there any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Ulcers,
Burns,	Wounds,
Chapped Hands	Rheumatism,
Chilblains,	Salt Rheum,
Fistulas,	Skin Diseases,
Gout,	Sore Legs,
Lumbago,	Sore Breasts,
Mercurial Eruptions,	Sore Heads,
	Sore Throats,
	Sores of all kinds.

Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, at Pots, at 25 cts., 62 cents, and $1 each.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

TO NEW SUBSCRIBERS

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz

THE LONDON QUARTERLY (Conservative)	1
THE EDINBURG REVIEW (Whig)	2
THE NORTH BRITISH REVIEW (Free Church)	3
THE WESTMINSTER REVIEW (Liberal)	4
BLACKWOOD'S EDINBURG MAGAZINE	5

THE great and important events—Religious, Political, Social—now agitating the nations of the World, give to newspapers and periodicals of the day, a degree of interest, never before possessed. They occupy much ground between the limits of written news and speculation, and the writers of the numerous articles upon those points of the intelligence, which most deeply interest in this fact, he records shall live and be handed down to after ages. The Western Continent, a large share of the attention of the British Reviews and Magazine, and many of the most popular contributions to them are from able and reliable sources of the intelligence of the British Empire. Nowhere else in the world can so much reliable information on the subjects of the day be found.

These Periodicals also represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics form only a small portion of the contents. Organs of the most profound and learned writers, Morality and Religion, the highest standard of literature, and the choicest specimens of wit and humor, are furnished in the world of letters, by the writers whose articles appear in these periodicals, and the publication of a work containing the whole of the intelligence of the day, throughout the world, that can be relied upon, is admirably obtained from any one of these Periodicals.

EARLY COPIES.

The receipt of Advance Sheets from the British Publishers gives additional value to these Reprints, as during the present exciting state of European affairs, they can now be obtained in the United States as early as in London.
